

## NOW HIRING!

Boulder Creek Heating & Cooling Corp. is looking for a community member that are mechanically inclined, motivated individuals from Sik-E-Dakh to join our Installer Team for the Greener Energy Cold Climate Heat Pump & HRV System Project in the Sik-e-Dakh Community.

### Position Details:

- Job Type: Part-Time (Duration of Project)
- Pay: \$25 per hour
- Hours: Time starts on the job site and ends when leaving the job site.
- Tools: Basic tools for the job are provided.

### Opportunity for Growth:

- Gain hands-on experience in HVAC installation and maintenance.
- Potential to become a certified service technician for these systems in the community.
- Systems require bi-annual maintenance to maintain a 10-year warranty on Heat Pump systems.

### Job Responsibilities:

- Install customer HVAC systems including Heat Pumps, HRV, and air conditioning units.
- Maintain, clean, adjust, and repair ventilation systems.
- Perform warranty services and document equipment inventory.
- Ensure compliance with building codes and Occupational Health and Safety Act.
- Follow service standards, work instructions, and customer requirements.

### Skills & Qualifications:

- ✓ Technical Proficiency: Understand system components and installation techniques.
- ✓ Physical Stamina: Ability to handle heavy equipment and work in confined spaces.
- ✓ Detail Orientation: Precision in installation for optimal system performance.
- ✓ Problem-Solving Skills: Ability to troubleshoot unexpected issues.
- ✓ Customer Service Skills: Communicate professionally with clients and ensure satisfaction.

### Safety & Work Ethic:

- Work safely & efficiently – "Get good first, then get fast."
- Install systems to building code standards to maintain structural integrity.

 Join our team and be part of a greener energy future!
